About Us

Felix Pool, located in California, USA, brings forth a revolutionary range of swimming pool equipment, which makes swimming much more joyous, safe, and healthy. Our product range encompasses Swimming Pool LED Light, Swimming Pool LED Underwater Lights, Swimming Pool First Aid Kit, Swimming Pool Leaf Net, and others. These products are manufactured by us, using durable and corrosion-resistant components that are resistant to atmospheric conditions. Installation of our swimming pool equipment is much easier as compared to others and also all the products are guaranteed with a high level of quality standards. We have expertise in the bulk delivery of the consignments, along with ensuring timeliness and competitive pricing.

Guide to Buying Swimming Pool Equipment

Swimming Pool, whether above the ground or in-ground, requires a wide range of well-designed equipment to keep the water clean. As a pool owner, it becomes their responsibility to maintain the hygiene and safety levels. To keep the water circulation in proper condition and manage the flow, some equipment is necessary and you must choose a reliable company like us to purchase that equipment. Some of those are:

Pump Assembly: We provide durable pump assembly that pumps out fresh and clean water efficiently, without requiring much maintenance. Customers can contact us for energy-efficient with high HP rating and motor-efficiency.

Filtration System: Check out the filtration system that may be DE type or Cartridge based. We suggest you go for high-end cartridge based filtration system to filter out microscopic particles.

Pool Heaters: Not just to augment the swimming fun, but also to provide safety from the excessive cold water to the beginners or children, Pool Heaters are necessary equipment. We recommend you to invest in our Swimming Pool Heating System, as the products we offer have been fabricated using high-quality electrical components.

Pool Light and Covers: Where on one hand pool covers provide safety to water from being contaminated, pool lights helps swimmers to use the pool even at night.

Buying In Bulk from Us

You can contact us to buy a range of equipment that is essential for the proper maintenance of the pool. We have a dedicated manufacturing unit to produce products in compliance with the market norms. With the strong capability to undertake bulk production, which is supported by a quality-control and quality-assurance departments, we effectively manage to serve world-class swimming equipment to our clients.

Quality That Matters

Quality is one such thing for which every individual or company is concerned for as no one wants to spent their hard earned money on inferior products. Knowing the importance of quality, every single product in our firm is made up of finest grade material which we source from certified vendors. Under the strict supervision of our experts, the entire range of Swimming Pool Accessories, Swimming Pool Lights, Counter Current Nozzles, etc. is manufactured with the help of advance machinery. With every passing year, we come up with innovative products and keep improving the quality of existing goods.
